-BY *PENELOPE*

Mr. W. H. Hewlett, of Hamilton, Ont., one of the adjudicators of the Musical Festival, is the guest of Mr. and Mrs. C. C. Truesdaine at the Rene Lemarchand.

The Earl and Countess of Ashburnham are to sail for Canada in the early part of June, and will spend the summer in Fredericton, which was Lady Ashburnham's former home.

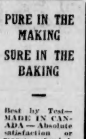

At the marriage of Miss Edith Shaughnessy on June 3, to Mr. René Hédmond, the maid of honor will be Miss Marguerite Shaughnessy and the bridesmaids Miss Helen Thompson, Miss Christine Somerville, and Miss Jeanne Chevalier. Mr. Harold Hingston will be the best man.

The friends of Mrs. Alex. Stuart will be sorry to hear that she has been obliged to undergo an operation for appendicitis in the Victoria hospital, London. Happily, she is progressing favorably. Mrs. Stuart had been attending the Presbyterian Women's Missionary meeting in Toronto and has since been visiting friends in Hencoe and London.

GENERAL ASSEMBLY TO MEET THIS YEAR IN WOODSTOCK

Delegates Will Spend Eight or
Nine Days in Annual
Deliberations

Woodstock, Ont., May 22.—Subjects relating to every phase of church life will be considered at the fortieth general assembly of the Presbyterian church in Canada, which will convene here on Wednesday, June 3, in Knox church, one of the most ecclesiastical structures in Western Ontario.

The Rev. Dr. Murdoch Mackenzie, who spent twenty-five years of his life in North China, and who during the last twelve months has visited Canadian churches from the Atlantic to the Pacific, will preach the introductory sermon. He will naturally take under review the foreign work of the denomination, and will seek to stimulate it to greater and more earnest efforts in the future. His performance of the duties in convening the assembly will complete his work as the moderator and his successor will be elected on the evening of the meeting.

College Education in the West.—The delegates to the Assembly will spend eight or nine days in their deliberations and their discussions. All the important committees of the church will make reports of the work done during the year. The most important committees are those having charge of the work of the church at home, abroad and in college. At the meeting of the Assembly in Toronto last year a large committee was named to take under consideration all questions relating to colleges and college education, and it is expected that a very earnest debate will occur with regard to the work of the colleges this year. The church has institutions of this character from Halifax in the east to Vancouver in the west. New institutions have recently been begun in the cities of Edmonton and Saskatoon, and from these interesting reports are expected. Many leading ministers of the church have expressed their belief that changes should be made in the curriculum of the colleges, and that they should be made more practical and up-to-date. Rev. Dr. Herdridge, and the Rev. Dr. Ramsay, of Ottawa, are among the leading ministers who have urged a revision of the methods of education in the colleges of the church.

The financial condition of the church is said to be fair. A report will be presented at the assembly showing that in two years which ended on February 28 last there was secured for the general purposes of the denomination \$50,000 more than in the previous year. This is considered an excellent showing in view of the great financial depression. The east did better for the church than the west in this regard. The prairie provinces appear to have been more severely hit by the depression than the older provinces in the east, and the provinces were less for the year than they were in the previous year. While the revenue of the church has increased, its obligations have increased still more rapidly. The Presbyterian church now guarantees in full the payment in

UNCLE SAM—"Observe please, I am not fighting you. I will not under any consideration MEXICO—"Yes, yes, senor. But kindly do not stand on my feet."

salaries of all its home missionaries. In earlier years only a portion was guaranteed, the assumption being that the balance would be paid by the congregation. In addition to this the church now provides outlays such as homes and companions for the ministers and students who do the work in remote parts of the country. All this means additional expense. In foreign countries there have also been

developments in recent years, which have laid a heavy financial burden on the church. In India, for instance, whole cities have applied for admission to the help. The same thing has occurred in other countries. In China, owing to the political change, there has been a strong demand for increased mission work. The same thing has been true in Korea. The result has been that large expenses have been

incurred. With a return of better times in Canada, it is believed that all the money needed for this new work will be provided. Rev. Dr. A. S. Grant has borne a considerable portion of the burden of this financing, and it is possible that he may come in for some criticism at the coming meeting of the Assembly.

Church Union Up Again.

Sentiment on the church union

Wouldn't Think of Fighting

question is favorable to union in this district and it is believed that a forward movement will be taken at the coming Assembly. The church will be practically forced to go forward, since the condition is becoming acute. Since the meeting of the Assembly in Toronto in 1912, about 1,000 local church unions have taken place between Methodists and Presbyterians. These unions have occurred chiefly in the prairie provinces. In Ontario, where in some districts the population is declining, union is obviously desirable. Conditions are, however, more settled here than in the west, and people are slower to take action. The increasing number of local church unions which are effected in the expectation that a legal union of the two denominations will take place in the near future will, however, have influence on the Assembly. One opposition to union is expected to be vigorous. A few weeks ago a meeting of those opposed to union was held in Toronto and plans were laid at that time to fight union in the assembly here. It is recognized that whenever union is effected there will be some loss, and there appears to be a growing determination on the part of those who are favorable to union in getting this matter to a final issue. Some changes have been proposed on the basis of union, and although these are trifling it will be necessary to give consideration to the opportunity to vote on them. Consequently a new vote will be taken, probably before the close of the present year in all the congregations of the church, both Methodist and Presbyterian.

Delegates' Transportation Paid.

The attendance at the meeting here will be large. For the first time, this year the railway expenses of the delegates from all parts of Canada will be paid by the church. Last year the expenses were paid but it was then regarded as a special feature of the congress of that year. This year the expense will be paid for the first time in accordance with the permanent standing order of the denomination. To earlier years ministers living in the prairie provinces and in British Columbia and ministers living in remote parts of the maritime provinces were in many cases unable to attend the Assembly owing to the expense. This difficulty is now removed and it is expected that there will be as full a representation from the far west and from the far east as there will be from the province of Ontario.

Local Arrangements.

Although Woodstock is much smaller than the cities which as a rule entertain the Assembly, there will be adequate provision in Knox church both for the public gatherings and for all committee meetings. The structure is comparatively new, having been built only fifteen years ago. The auditorium will seat from 1,200 to 1,500 people and the school room 500 additional. A number of the delegates to the Assembly will be coming back home to Woodstock. It is said that this district has sent upwards of 100 ministers into the service of the church during the last 40 years.

WINNIPEG BUSINESS MEN.

Lethbridge, May 22.—A party of Winnipeg business men arrived in the city at 8:15 this morning from Calgary. They were met at the station by the mayor, the president and officials of the board of trade and a number of prominent citizens. In an automobile the party was conducted through the city and then to the hotel where they will be staying.

HIS HOMESTEAD IS VALUED AT \$90,000

Port McMurray Man Secures Patent for River Lot 8 of Mc-Murray Township

In the fall of 1908, Walter Hungenberg crossed the Montana line and took the trail for Port McMurray. After four years' wandering, prospecting and trading on the Athabasca river he died on River lot 8, and came to Edmonton some five weeks ago to secure his patent. His property is said to be worth \$1,000 an acre, and that for a ten dollar bill and 10 years' work and residence he has secured possession of property valued at approximately \$90,000. When interviewed by the Bulletin yesterday and while describing the difficulties he had experienced in "proving-up" his land, he referred to himself whimsically as a "poor man."

Lacked about 60 ft. Port McMurray, Mr. Hungenberg said: "To all these years I have kept a close watch on oil properties. Oil has been struck, but not yet in paying quantities, that is the main body has not been reached. The trouble has been that the derricks always broke down after a certain depth had been reached, and there was difficulty in getting the proper tools to reach them. The advent of the railway should solve this problem."

Mr. Hungenberg stated that thick oil was founding about in many places in the Port McMurray district, on the surface of the ground, which the settlers for many years have used in need of fuel for painting their houses and the bottoms of boats.

"There is tar sand enough," he said to acquaint the streets of the world for years to come. I have used some of it on the top of my house and it makes excellent roofing."

He added that, in his opinion, greater success would be met with if companies boring for oil would locate further back from the Athabasca river.

BRITISH COMMENT ON THE OIL STRIKE

Canadian Associated Press.

Received here, announcing the cancellation of the oil strike in Canada, which has just been discovered, have not yet aroused any great amount of popular anxiety. The soundest of financial writers, while not denying that there might be riches from oil in Alberta, are unanimously inclined to suspend judgment until the recent discoveries have been proved fruitful. Only recently a certain syndicate here widely offered shares in an Alberta oil proposition, the offer being roundly condemned by every investor who thought it worth while to refer to it at all.

EMPIRE DAY IN BRITAIN.

London, May 22.—Empire Day is being largely celebrated in the schools of the British Isles today. Lord Roberts will take the salute in Hyde Park tomorrow from a parade of 6,000 youths, including the cadets of the Western Canada. Several English companies will be taking part in the parade.

They were included, no the latter were asked to assist themselves.

REV. DR. BAIRD MAY BE NEXT MODERATOR

Winnipeg Divine Likely to Be Elected Moderator of Presbyterian General Assembly

Woodstock, May 21.—The announcement that Rev. Dr. Baird, of Manitoba College, has consented to become a delegate to the annual meeting of the Presbyterian church in Canada, which will be held here on Wednesday, June 3, has caused much interest in this gathering. It is regarded as certain that Dr. Baird's name will be placed in nomination by western men for the position of moderator of the assembly. It is possible, that being nominated, he may also be elected this year. If not chosen this year, he will be held in the Pur West. Several other names have been mentioned in connection with the moderatorship, including those of Dr. Herdridge, Ottawa; Dr. A. S. Grant, Toronto; and Dr. John Neil, Toronto.

Dr. Baird of Winnipeg, was nominated for the position of moderator of the Presbyterian of Winnipeg and would probably have been elected but for his own refusal. It is admitted by the leaders in the church that the West has scarcely had its share in the matter of the election of moderators. Almost half of the preaching stations of the church are now west of the Great Lakes, but only in a few cases have western men been elected to this position.

METHODIST MINISTERS ECCLIASTICAL TRAMPS

Hamilton Conference Strongly Urged to Memorialize General Conference to Extend Term of Pastorate

Woodstock, Ont., May 22.—A resolution, submitted by Rev. L. W. Hall, of Inverell, at yesterday's session of the district of Hamilton Methodist Conference, urging memorialization of the general conference to extend the pastoral term of Methodist ministers in Canada beyond the four years at present in vogue, was defeated by a close margin. Rev. H. W. Brown, of Central Methodist church, this city, in supporting the resolution, said he was sick and tired of changing from place to place every four years and characterized Methodist ministers as ecclesiastical tramps.

It was decided to ask the general conference to remove the cause providing that prohibitions must have in permission before they can marry.

CARRIED TO SCAFFOLD

Montreal, Que., May 22.—Thomas Bernard was hanged at six minutes to eight this morning for the murder of Louis Riel, a Notre Dame street, over a year ago. Newspapermen and twelve guards witnessed the execution at Bordeaux jail. The murder was carried to the scaffold and killed Riel. Bernard was carried to the scaffold and shuddered when he saw the end drawing upon him.

Canada's Oil Mad Brokers' Offices Are Open Day and Night

Transactions Involving \$30,000 in Cash Are of Ordinary Occurrence
—Every Available Inch of Floor Space Being Used by Brokers
—Trading in City Being Placed on Better Footing

(From Evening Edition)

When the stock of the Dingman Company was selling in Calgary at a dollar a share, a girl clerk in a department store was advised by a friend to buy. She took out of the bank \$210, all she had in the world, and secured 210 shares. From the stock she sold out at \$100 a share, realizing \$21,000. Involuntarily with her success, she is said to have thrown her check book in the face of the department manager and walked out.

One of the party of New York financiers who are travelling through the west under the guidance of the Canadian Northern Railway, and who is now in Edmonton, says that Calgary people have gone stark raving mad over oil. "You people here," he said, "are Parisians by comparison."

Pandemonium Reigns.

"Brokers are paying as much as \$100 a day for locations in hotel restaurants. In the Royal George Hotel pandemonium reigns. The lobby is filled to suffocation with yelling guests-calling men."

"When a guest leaves the hotel, he'll have to go ahead to clear a passage. I saw with my own eyes a man with \$10,000 in a pocket in \$100 bills. A minute later he came back with more shares, adding for the 'other with his spectacles.' I declare he was actually handing large sums of money to a man whose name, even, he didn't know."

Four square at Premium.

"Hot stores, drug stores, candy kitchens and laundry shops are all given over to the oil brokers. It is impossible to walk down some of the streets, the crowd is so great. Now and then are put out the market every day, their stock is started at 10 to 15 shares and is then at 100, it is selling on the curb at a dollar."

"Brokers' offices never close, night or day. One broker, a Jew who has a stand in one of the hotels, makes \$1,000 a day in commissions. The scene in these hotel lounges is indescribable. It is like a stock exchange riot. Men can be seen running around with thousands of dollars in their hands. Business is suspended. Hotels and boarding houses are crowded to overflowing."

Land in selling.

"There was somewhat of a lull in oil trading in Edmonton yesterday day partly in the fact that many brokers have exhausted their assignments of stock, and that little attempt has yet been made to reach a basis of prices upon which shares may be resold. One company, whose manager is now in Calgary negotiating for new issues, purchased a block of stock at \$1 a share and sold it for the same price without brokerage charge, in order to keep business moving."

"A number of brokers are talking already of establishing an exchange, in order that contract prices may be established. Yesterday the quotations were not uniform, and the difficulty of listing and re-selling stock resulted in all prices sagging."

Dingman, for instance, which is reported to have sold in Calgary as high as \$200 a share on Friday and Saturday was last night at Jasper, 100 cents, at \$17.50. Black Diamond ranged from 15 to 18, and Western Pacific, quoted yesterday at \$1.35, sagged to \$1.25. The following prices in other stocks ruled: United, \$1.15; Heron-Bird, \$1.50; Union Pacific, \$1.50; Prudential, \$1.10; Phoenix, \$1.10; Alberta, \$1.10; and Development, 40 cents. Pacific, 25 cents; 10 cents; Great West, 10 cents; Union Pacific, 25 cents; Western Petroleum, 25 cents; Transoil, 10 cents; British Canadian, 10 cents; British American, Standard, 10.

Investors are warned that there are two Black Diamond issues. Both have the same board of directors, but they are entirely independent companies developing separate properties.

A new concern, the Bannock company, limited, is promoted by Edmontonians, and is now in the hands of A. G. Gross, barometer, Mabel Hammond and H. W. Dodge. Investors are Charles H. Veitner, Calgary, president; H. T. Chalmers, Calgary, vice president; and Leo S. Ward, Calgary, secretary. The Northern Exploration company, of which Lieut. General Macdonald is president, has opened an office on Jasper avenue east.

Awarding of Water Main Contract To High Bidder Stopped By Injunction

R. I. Devall, Through Agent, Obtains Interim Injunction Restraining Commissioners From Awarding Contract to Tenderers
\$11,000 Higher Than Devall

An interim injunction obtained in the name of Ambrose Eugene Voyer by R. I. Devall, agent, and C. L. Devall, was served on the major and committee yesterday, restraining them from awarding the contract for water main construction on the north side to Madsen and Graham as recommended and approved by the commissioners on Monday.

The action of Voyer is taken because one of the tenderers, C. L. Devall, submitted a tender \$11,000 lower than the tender submitted by Madsen and Graham. The two later tendered separately, their prices being \$10,000 and \$11,162, and by G. W. McElhannon, \$11,842. After the figures were adjusted by the engineer, it was found that each of these tenders worked out at just about \$11,000. The tender of C. L. Devall on the other hand, was submitted at close to \$17,000.

In his recommendations to the commissioners, the city engineer pointed out that his reason for giving the contract between Madsen and Graham, was because Devall's tender specified the use of trenching machines, and these he claimed could not be used to advantage in the lanes, in which the greater part of the work was to be done this year. Devall, on the other hand,

contends he is responsible for the manner of doing the work, so long as it is up to specifications. He points out that what was great in the contract, so the winning must be regarded as satisfactory by the city engineer.

The application to make the injunction permanent was heard in the supreme court Wednesday next.

No Falling Off In Passengers on Street Railway

Increase in Fares Has Not Affected Number of Passengers Carried

(From Evening Edition)

Have the increased fares made any appreciable difference in the number of passengers using the street railway daily? Although the new fares have been in operation only five days, the figures announced daily by the department would indicate that the increase has been very slight, the average for the first four days this week being only a few hundred less than the average for corresponding days this month.

A very definite result of increased fares, however, is experienced by dealers in bicycles. Queries made to dealers bring the information that the sale of bicycles has slowed up considerably, and this is ascribed to the higher street railway fares. The total number of people going in for bicycles, however, is not alarming, and will make little or no real difference to the street railway.

BANDITS ATTEMPT TO HOLD UP GAMBLERS

Conventional shooting at San Francisco

San Francisco, May 22.—With drawn revolvers, two masked men entered a road house on the southern outskirts of the city early this morning, where nine men were playing "blacks"—a card game. A scene of shooting followed and cost the lives of a player and one of the bandits. The other bandit was probably fatally wounded and another of the players received a wound in the neck.

The dead are: David Williams and James Bailey. Bailey and Edward Donovan, the highest bidder, rushed to a hospital one of the players, crying "We want you and we want living." He was tumbled out of his chair quickly enough to see the bullet enter his chest, who was dealing, tried to interfere and was shot through the head. The other players scrambled to cover.

WHO MAY BE DEAD.

Toronto, May 22.—George Kapelle, the owner of the rescue car at the Westview Hospital this morning, after a long illness.

Oil Near Edmonton

Why Ship Thousands of Dollars Out of Edmonton

when we have just as good prospects here in our own districts?

The Nakamun Asphalt & Oil Company, Limited, are actually drilling within 40 miles of Edmonton and are already down several hundred feet with every indication that before long they will strike oil.

Why do we say this?

Because we have already encountered the genuine WEST GAS, just as good as any struck in the south country.

Because the formations encountered are similar to those referred to by CUNNINGHAM CRAIG in his book "Oil Finding," as being extremely favorable.

Because we are in close proximity to two genuine MUD VOLCANOES, which the whole year round are covered with oil forced up from below. Cunningham Craig says that he has never yet known a well to fail when drilled near a mud volcano.

The Nakamun Asphalt & Oil Company, Limited, control leases covering 4200 acres of land in the vicinity of these mud volcanoes.

As a further protection to our shareholders we control 1200 acres of land within three miles of Fort McMurray, land which is acknowledged to be one of the richest in that neighborhood for asphalt.

Also 560 acres of coal land near Whitecourt.

An investor in the Nakamun Asphalt & Oil Company, Limited, gets a share in all three valuable assets, and there is THREE CHANCES TO ONE over the man who only invests in oil.

Remember, We Are Actually Drilling Today

and are already down to where we may expect developments almost any moment. Every dollar invested north of Edmonton benefits our own city.

This is your great opportunity to feather your own nest and at the same time help make your own city prosper.

ONLY TWO PER CENT OF LAND BEING USED

Canada's Agricultural Land as Yet Has Been Scarcely Touched

Ottawa, May 21.—The political agricultural resources of Canada are indicated by the fact that not more than 2.4 per cent. of the total land area of the nine provinces is now under cultivation. This is one of the interesting statements in a bulletin just issued by the census and statistical branch of the Department of Trade and Commerce.

The total land area of the nine provinces is placed at 1,011,215,412 acres. The area of farm land occupied in 1911, according to census figures, is 103,771,931 acres. It is estimated that within the boundaries of the nine provinces as at present constituted, there is a total cultivated area of 466,521,900 acres. This, it is noted, was only 4.6 per cent. of the total land area and takes no account of forest and swampy lands which may ultimately be tilled out of northern areas, or of vast agricultural possibilities at present unknown, because uncultivated and unsurveyed.

The total area under cultivation is given as thirty-six million acres. Of this the crops represent 25,338,000 acres and fruit and vegetable crops 625,000 acres. Only about thirty-three per cent. of the area now occupied as farm land is at present under cultivation, while as noted above only 2.4 per cent. of the total land area is occupied for agricultural purposes.

Heavy Selling by Former Buyer Responsible For Fall in Prices

By Bulletin Leased Wire.
CHICAGO, May 22.—Heavy selling of interest that was traced to the buying side during the recent advance pulled down prices today in wheat, corn and soybeans. The price of wheat was under 1-12 to 1-10, corn 1-12 to 1-10, and soybeans 1-12 to 1-10. The price of wheat was under 1-12 to 1-10, corn 1-12 to 1-10, and soybeans 1-12 to 1-10.

W.A.P. STOCKS

WINNIPEG LIVE STOCK

By Bulletin Leased Wire.
WINNIPEG, May 22.—Choice steers were 7-10 to 8-10, choice heifers were 6-10 to 7-10, and choice calves were 5-10 to 6-10. The price of wheat was under 1-12 to 1-10, corn 1-12 to 1-10, and soybeans 1-12 to 1-10.

CHICAGO GRAIN MARKETS

CHICAGO, May 22.—Although absence of predicted general rain today put a little firmness into wheat prices at the outset, decline took place later on. Optimistic reports as to the weather, however, did not lead to do with weakness in the market. The price of wheat was under 1-12 to 1-10, corn 1-12 to 1-10, and soybeans 1-12 to 1-10.

Temporary Premises—NEXT DOOR WEST OF BLOWEY-HENRY'S FURNITURE STORE
No connection with store now running at our old location. DO NOT be deceived

Forced to Sell

\$20,000 CLOTHING FURNISHINGS HATS & SHOES

THE REASON:

Forced from our old corner 20 days before our new store in the OPUS CLUB Building was ready we were obliged to place our \$20,000 high grade stock in the large store located first door west of the Blowey-Henry Furniture Store, directly opposite Campbell's Bakery, Jasper East.

Owing to This Extra Move we Have Decided

to sell every dollar's worth at Auction Prices at this temporary location. This means a tremendous sacrifice, but not one dollar of this stock goes into our new store. We give ourselves just 10 sale days to sell out and ask your help. The quality you've known for 16 years, will you come now and help us sell out by selecting goods at half or less

Sale Begins Sat. 9 a. m.

CONTINUES FOR TEN DAYS ONLY
